DESIGN OBJECTIVE

A radiolike platform where new to Jazz audiences can get songs and artists recommended according to their choice of instrument.

Why

When I used to play trumpet, I was searching youtube all day to find inspiration.

-It was hard to choose artists to listen to because there were too many artists to choose from.

-Wanted to listen to trumpet solos and it was hard to find which songs had more trumpet solos in.

Want a platform where people can visit and listen to various artists according to instruments of their choice
